Customer's Application:

LCD for Phone

LCD for photo Printer

FAQ:

1. Q: Does the LCD with touch panel?

A: At present it is NO, but we could add the touch panel on it.

2. Q: What's size TFT LCD you have?

A: At present we have 1.77 to 10.1 inch in stock, warmly welcome your checking.

3. Q: Can you provide the software?

A: Sorry we can't provide the software, but we can give you the code in my company for reference.

4. Q: What is the viewing angle of your LCDs?

A: All of our TFT LCDs meet or exceed 130 degree (Horizontal) and 110 degree (Vertical) viewing angle. Our wide view film technology achieve viewing angle 160 degree (Horizontal) and 140 degree (Vertical). We also have Super-Wide-View technology that will achieve 85/85/85/85 viewing angle, which is the best technology for viewing angle and color reproduction. Please consult the individual part specification for details.
